The Breyman building which they vacated is being brought in readiness for Con De Pree who will soon open with a line of drugs.

On Tuesday evening a happy congregation met in Hope church, consisting largely of little folks. It was the occasion of the presentation of a communion table by the Junior Christian Endeavor Society to the church. The idea of such a gift was first suggested by Hubert Birchby, and it cast a slight shadow of sad remembrance over the otherwise happy occasion. The presentation speech in behalf of the society was made by Prof. J. H. Kleinhekel, and Dr. G. J. Kollen responded in choice words of gratefulness in behalf of the church wardens. The gift is a communion table of exquisite design, the inspiration of Arthur Birchby. At one end is a silver plate with the inscription, "April 4, 1899. Presented to Hope Church by the Junior Christian Endeavor Society. In memory of Hubert Birchby, our beloved friend and companion. Died July 19, 1898, aged 15 years."

The result is Bright's Disease, Diabetes, Bladder Troubles, &c. ### SOME FACTS AND FIGURES.

From the statistics of state penal institutions, as given in the sixteenth annual report of the commissioner of labor of this state, we gather the following interesting facts:

On May 1, 1898, one year ago, there were confined in the various penal institutions in this state 3,047 persons of which 2,666 were males and 381 females. There were 381 persons confined for burglary; 323 for grand larceny; and 83 for murder in the first degree.

From "A Chapter of Horrors" in the same volume we take the following: From April 19, 1898, until January 1, 1899, there were in this state 131 persons who committed suicide. The causes assigned were distributed as follows: Despondency, 30; dissipation, 18; unknown, 17; unbalanced, 16; ill health, 15; family troubles, 13; business difficulties, 11; love affairs, 7; mystery, 4. It is generally supposed that more women commit suicide than men. Of the 131, however, there were 99 men and 32 women. It is certainly a terrible showing that so many should be induced by circumstances and social conditions to lay violent hands on their own life. One encouragement, however, is found in the fact that this year there were twelve less than during 1897.

From the same source we gather the following mortgage statistics of Ottawa and Allegan counties.

Between May 1, 1897 and May 1, 1898, there were 571 mortgages on farm property recorded in Ottawa county with an aggregate amount of \$340,875, while 485 mortgages on farm property were discharged aggregating \$292,540. 204 village mortgages were recorded with an aggregate of \$294,490. The number of city or village mortgages discharged in Ottawa county was 276, aggregating \$266,830.

This shows that the number of farm-mortgages recorded in excess of those discharged during that year was 86, with an aggregate amount of nearly \$50,000.

In Allegan county 752 mortgages on farm property aggregating \$454,870 were recorded from May 1, 1897, to May 1, 1898; during that year 675 mortgages on farm property were discharged amounting to \$583,330. The number recorded in excess of the number discharged was 77 with an aggregate amount of \$71,540. The number of mortgages on city or village property recorded was 119; the number discharged, 157.

In both counties the rate of interest shows a decrease, in Allegan from 7.3 to 6.8 per cent and in Ottawa from 7.3 to 6.7 per cent.

### APPOINTED A SENATOR

Quay, Acquitted of the Conspiracy Charge, Is to Go Back to Congress,

PROVIDED THE SENATE SAYS YES.

Will Raise an Old Issue in That Body Which Has Been Decided by the Democrats Adversely—Right of Governor to Appoint Will Again Be Reviewed—Quay's Success Will Let in Three Others.

Philadelphia, April 22.—Senator Quay was acquitted yesterday of the charges brought against him and the verdict was enthusiastically received by the many friends of the senator who were in and about the court. The jury originally stood 10 to 2 in favor of acquittal, and it took all the time to bring about a change of heart in these two. The news had not more than reached Harrisburg when the governor appointed Quay United States senator to fill the vacancy till the next legislature meets.

One View from Washington.

Washington, April 22.—The action of Governor Stone, of Pennsylvania, in appointing Matthew S. Quay to succeed himself in the United States senate is for moral effect solely. The constitution of the state not only does not confer upon the governor the appointing power, but almost in terms prohibits such action and provides that only the legislature can fill a vacancy. To the extent of his ability, however, Governor Stone gives Quay official indorsement and offers testimony of his confidence in the loyalty to his old friend.

Precedents Against the Governor.

Recent United States senate precedents are against the seating of a senator appointed by a governor after the failure of a legislature to elect, even though the power of the governor to appoint is undisputed. The recent precedents were established by Democratic votes, however, and were a reversal of the old senate policy. It is now in the power of the Republicans, who have a clear majority of sixteen over a combined opposition, to do another reversing act and return to the old practice of recognizing the validity of gubernatorial appointments under circumstances that now obtain in Pennsylvania.

Not at All a Forlorn Hope.

Indeed, it may be assumed that if a Republican senate has half a chance it will uphold Quay's fight for a seat. His rating as a "club member" is all right and senate sympathy will be on his side. If he goes in the governors of Utah, California and Delaware will also doubtless exercise their appointing prerogative and name senators to serve until their state legislatures can elect.

### CRIME IN HIGH PLACES.

Ex-United States Officials Accused of Aiding Counterfeits.

Philadelphia, April 22.—Former United States District Attorney Elery P. Ingham, of this city, and Deputy Internal Revenue Collector Samuel B. Downey, of Lancaster, Pa., were arrested by secret service officers yesterday on the charge of aiding the Lancaster counterfeiters in their efforts to flood the country with bogus treasury notes and internal revenue tobacco stamps. The arrest of Ingham created a great sensation on account of his prominence and his former connection with the government as United States attorney for the eastern district of Pennsylvania. Those who are now under arrest charged with complicity in the great plot are: Elery P. Ingham, ex-United States district attorney, of this city; Henry K. Newitt, ex-assistant United States district attorney, of this city; Samuel B. Downey, deputy internal revenue collector of the Ninth internal revenue district of Pennsylvania, of Lancaster, Pa.; William F. Kendig, of Lancaster; Thomas Burns, Kendig's foreman; Arthur Taylor, expert engraver, of this city, and Baldwin S. Bredel, expert engraver and mechanic, of this city.

### EXPLOSION OF BENZOL.

Sends Two Persons to Eternity and Badly Hurts Three Others.

Philadelphia, April 26.—By the explosion of seventy-five gallons of benzol in the laboratory of Frank H. Fler & Co., manufacturers of chewing gum at 2343 and 2345 Callowhill street yesterday, two men were killed, three persons seriously injured and over a score of others more or less hurt by flying debris. The dead are Walter Manwaring, assistant superintendent, and Charles McKinley, engineer. Of those injured Harry Randall, an employe, and Mrs. Givison and her 1-year-old child are the most seriously hurt, but they will recover.

No less than 100 buildings in the vicinity, most of them very small dwellings, were damaged. The laboratory building was a two-story structure. At the time of the explosion there were only four men working in the building with the benzol, and the fumes from the benzol in some manner reached the furnace in the next room and the explosion instantly followed.

Champaign Oratorical Contest.

Champaign, Ill., April 24.—The entries for the inter-scholastic oratorical contest to be held here in May have closed. A large number of orations were handed to the faculty committee and from the lot ten young people will contest for the silver cup. The cup was won last year by James Charles James, of East Aurora. The orations were judged on the basis of style and thought. The following ten will strive for the prize: Olney C. Allen, East Aurora; James Burke, West Aurora; Ray B. Mouser, Bloomington; Albin H. Kay, Camp Point; Alfred C. Crawford, Englewood; Martin Taylor, Lockport; Carroll S. Bucher, Mount Carroll; Edward H. Weld, Rockford; Miss Ora Goff, Tuscola; Philip Kinley, Waukegan.

Six Hundred Driven from Home.

Omaha, Neb., April 26.—The rise of the Missouri river at this point has resulted in driving 600 people from their homes and nearly the total submergence of bottom lands territory, six miles long and two miles wide. And the water still continues to rise slowly.

### APPOINTED A SENATOR

Quay, Acquitted of the Conspiracy Charge, Is to Go Back to Congress,

PROVIDED THE SENATE SAYS YES.

Will Raise an Old Issue in That Body Which Has Been Decided by the Democrats Adversely—Right of Governor to Appoint Will Again Be Reviewed—Quay's Success Will Let in Three Others.

Philadelphia, April 22.—Senator Quay was acquitted yesterday of the charges brought against him and the verdict was enthusiastically received by the many friends of the senator who were in and about the court. The jury originally stood 10 to 2 in favor of acquittal, and it took all the time to bring about a change of heart in these two. The news had not more than reached Harrisburg when the governor appointed Quay United States senator to fill the vacancy till the next legislature meets.

One View from Washington.

Washington, April 22.—The action of Governor Stone, of Pennsylvania, in appointing Matthew S. Quay to succeed himself in the United States senate is for moral effect solely. The constitution of the state not only does not confer upon the governor the appointing power, but almost in terms prohibits such action and provides that only the legislature can fill a vacancy. To the extent of his ability, however, Governor Stone gives Quay official indorsement and offers testimony of his confidence in the loyalty to his old friend.

Precedents Against the Governor.

Recent United States senate precedents are against the seating of a senator appointed by a governor after the failure of a legislature to elect, even though the power of the governor to appoint is undisputed. The recent precedents were established by Democratic votes, however, and were a reversal of the old senate policy. It is now in the power of the Republicans, who have a clear majority of sixteen over a combined opposition, to do another reversing act and return to the old practice of recognizing the validity of gubernatorial appointments under circumstances that now obtain in Pennsylvania.

Not at All a Forlorn Hope.

Indeed, it may be assumed that if a Republican senate has half a chance it will uphold Quay's fight for a seat. His rating as a "club member" is all right and senate sympathy will be on his side. If he goes in the governors of Utah, California and Delaware will also doubtless exercise their appointing prerogative and name senators to serve until their state legislatures can elect.

### CRIME IN HIGH PLACES.

Ex-United States Officials Accused of Aiding Counterfeits.

Philadelphia, April 22.—Former United States District Attorney Elery P. Ingham, of this city, and Deputy Internal Revenue Collector Samuel B. Downey, of Lancaster, Pa., were arrested by secret service officers yesterday on the charge of aiding the Lancaster counterfeiters in their efforts to flood the country with bogus treasury notes and internal revenue tobacco stamps. The arrest of Ingham created a great sensation on account of his prominence and his former connection with the government as United States attorney for the eastern district of Pennsylvania. Those who are now under arrest charged with complicity in the great plot are: Elery P. Ingham, ex-United States district attorney, of this city; Henry K. Newitt, ex-assistant United States district attorney, of this city; Samuel B. Downey, deputy internal revenue collector of the Ninth internal revenue district of Pennsylvania, of Lancaster, Pa.; William F. Kendig, of Lancaster; Thomas Burns, Kendig's foreman; Arthur Taylor, expert engraver, of this city, and Baldwin S. Bredel, expert engraver and mechanic, of this city.

### EXPLOSION OF BENZOL.

Sends Two Persons to Eternity and Badly Hurts Three Others.

Philadelphia, April 26.—By the explosion of seventy-five gallons of benzol in the laboratory of Frank H. Fler & Co., manufacturers of chewing gum at 2343 and 2345 Callowhill street yesterday, two men were killed, three persons seriously injured and over a score of others more or less hurt by flying debris. The dead are Walter Manwaring, assistant superintendent, and Charles McKinley, engineer. Of those injured Harry Randall, an employe, and Mrs. Givison and her 1-year-old child are the most seriously hurt, but they will recover.

No less than 100 buildings in the vicinity, most of them very small dwellings, were damaged. The laboratory building was a two-story structure. At the time of the explosion there were only four men working in the building with the benzol, and the fumes from the benzol in some manner reached the furnace in the next room and the explosion instantly followed.

After an All-Day Struggle in Woods and Jungles MacArthur Rests.

## FIGHTS UP TO THE TRENCHESES

That Defend the Rebel Capital and Finds Them Strong.

Manila, April 23, 9:30 p. m.—In an encounter with the Filipinos today near Quingao, about four miles northeast of Malolos, seven Americans were killed and forty-four wounded. The following were killed: Colonel John M. Stoenberg, of the First Nebraska regiment, formerly of the Sixth cavalry; Lieutenant Sisson, of the same regiment; two privates of the Nebraska regiment and three privates of the Fourth cavalry. Most of the wounded belong to the First Nebraska regiment. The Filipinos retreated with small loss. The engagement developed into a disastrous though successful fight. The insurgents had a horseshoe trench about a mile long, encircling a rice field on the edge of a wood. Major Bell, with forty cavalrymen, encountered a strong outpost. One of his men was killed and five were wounded by a volley. The Americans retired, carrying the wounded under fire and with great difficulty, being closely pursued, a fog enabling the enemy to creep up to them.

Manila, April 23, 10:30 p. m.—General MacArthur's division fought its way to the Filipino trenches before Calumpit today, advancing four miles, mostly through woods and jungle, and crossing the Bagbag river. This was accomplished at a cost to the Americans of six killed and twenty-eight wounded, the First South Dakota regiment being the heaviest loser. After fording the

COLONEL FUNSTON.

river the South Dakotans pursued the insurgents to the outskirts of Calumpit, but the town was found so strongly protected that General MacArthur deemed it best to withdraw the tired fighters and to go into camp for a night's rest before making the final assault. The largest buildings in Calumpit were being fired by the Filipinos while the Americans were crossing the river fully a mile away, indicating the enemy's intention to abandon the place.

**Policy of the Filipinos.**  
The insurgents seem to have adopted a settled policy of retreating from one position after another after inflicting the greatest possible damage upon the advancing army. The forces today were well drilled. Every foot of the ground was tenaciously disputed by thoroughly organized troops, who stood remarkably firm even before artillery. The enemy had planned to wreck our artillery transport train. This attempt was a failure, but a span of the iron railway bridge over the river was destroyed, hampering the American transportation for some time. The Filipinos cut the girders, intending to have the structure fall with the train, but it collapsed prematurely of its own weight.

**Defenses of the Bagbag River.**  
The Bagbag river, which is about 100 yards wide at that point, was splendidly fortified, and the Americans were compelled to approach across an open space from which the rebels had cleared every obstruction to sight. The bank of the river—a high bluff—was surmounted with trenches capped with rocks, loopholed, and partly hidden by bushes. General Wheaton's brigade approached the river along the railroad, leaving camp beyond Malolos city. General Hale's, which started yesterday, was earlier on the march, and sweeping westward toward the railroad. The armored train was being pushed by Chinamen, the Twentieth Kansas regiment advancing in extended order on the left and the First Montana regiment with the Utah Light artillery, on the right.

**Rapid-Fire Guns Open the Ball.**  
The rapid-firing guns on the train "opened the ball" at 11:30 a. m. about a mile from the river, their popping alternating continuously with the boom of the six-pounders. The Montana regiment and the Utah artillery batteries at the same time entered the jungle from which the insurgents, who were occupying a large, straggling village of huts, poured heavy volleys. In the course of an hour the Americans had forced a passage through the woods to the open space in front of the river, shelling the Filipino trenches.

### GLORY FOR THE KANSAS MEN.

Holland's Company Does Well—Funston's Call for Volunteers.

In the meantime company K, Twentieth Kansas, led by Captain Boltwood, performed one of the most brilliant achievements of the campaign. The regiment was being held in reserve and company K charged a distance of a quarter of a mile over a cornfield to the bank of the river, near the bridge, where the insurgents from a trench were peppering the armored train, then about 200 yards down the track. Colonel Frederick Funston called for volunteers to cross the river, and the colonel himself, Lieutenant Bell, a private of company K, a private of company E, Trumpeter Barsfield and Corporal Ferguson, of company I, crawled along the iron girders.

While this was going on the men of company K, from the ditch, were fusing the trenches in the endeavor to divert attention, but the Filipinos got

the range from a trench down the river, and their bullets soon splattered the water under the structure. Having reached the broken span the small but valorous party of Americans slid down the cannon, swam a few yards to the shore and crawled up the bank, the little colonel leading the way to the trenches, revolver in hand, while the few remaining Filipinos bolted.

Colonel Funston said afterwards: "It wasn't much to do. We knew they could not shoot straight, and that our boys would attend to them while we were crossing." General Hale's troops, on the right, had the hardest fight. They followed the north bank of the river nearest the town from the east, with the First Nebraska regiment on the left and the First South Dakota and the Fifty-first Iowa beyond. The country to be traversed was mostly jungle. General Hale's right joined General Wheaton's left soon after noon, a curve in the river enabling the Americans to pour an enfilading fire into the enemy's trenches. About this time the cheers of the Kansas troops announced that the Americans had crossed the river.

General Hale's men began to ford the Chico, a branch of the Bagbag stretching to the northeast. The general himself plunged in up to his neck, and the regiments, all carrying flags, floundered across the stream. The guns of the Utah light artillery were dragged over next and formed into an extended line to advance upon the trenches before Calumpit, from which the Filipinos were pouring continuous volleys.

The armored car had one man killed and two wounded. The Kansas regiment had three wounded during the charge, and the Utah light artillery one killed and two wounded. Most of the other casualties befell the South Dakota regiments. It is difficult to estimate the insurgent losses, but they had no fewer than seventy killed, many of them by the artillery.

### HORRIBLE ILLINOIS MURDER.

Woman Killed and Her Body Thrown Into a Well.

Pana, Ill., April 22.—Yesterday afternoon Henry Brunot, who with Frederick Sibley was arrested early yesterday morning for the murder of Brunot's aunt, Miss Jane Brunot, of Dana, Ind., whose body was found in an abandoned well on her sister-in-law's farm, five miles north of Pana, has made a full confession to Chief of Police Kietz, Deputy Sheriff Cheney (who captured the murderers), and Banker Schuyler (who furnished the officials with the first clew which led to their apprehension). Brunot said: "On Monday, April 10, the day of the Pana riot when seven persons were killed and fourteen wounded, Sibley and I having laid our plans to kill my aunt that night I brought my mother to Pana, and as the firing was still going on I took mother to Mrs. Hampton's, where she staid until the next day.

"I then drove home and Sibley and I put up my horse and buggy. My aunt was then in the barn yard, milking. She went into the kitchen and was preparing supper. Sibley and I entered. We had planned that both should draw revolvers and fire simultaneously. I drew my gun and fired first. She fell, and I fired several more shots into her body. She died instantly. Sibley did not fire. Sibley tore all her clothing from her, searching for money, but found none. We dragged her out on the porch, threw her into the wheelbarrow, and Sibley wheeled her to the well and dumped her in, head first. We then built a platform a few feet below the surface of the ground and filled it with earth. "My mother had nothing to do with the murder. Our object was robbery. We thought that Aunt Jane had money on her." Sibley later made a confession corroborating that of Brunot. Brunot denied that his mother and himself poisoned their father three years ago to obtain his insurance. Both Sibley and Brunot denied all knowledge of the murder of Widow McIntyre, killed in the Flathead district two months ago. Mrs. Brunot has been released from custody. Sibley and Brunot were remanded without bail.

The coroner's jury at Taylorville in the inquest over the body of Miss Brunot found that she was killed by Henry Brunot and Frederick Sibley, but exonerated her sister-in-law.

### NEGROES TORTURED AND HUNG.

Preacher 60 Years Old the Victim of the Mob in Georgia.

Newnan, Ga., April 24.—In the presence of nearly 2,000 people who sent aloft yells of defiance and shouts of joy, Sam Hose, a negro who committed two of the basest acts known to crime, was burned at the stake in a public road one and one-half miles from here yesterday afternoon. Before the torch was applied to the pyre the negro was deprived of his ears, fingers and other portions of his anatomy.

Atlanta, Ga., April 25.—Lige Strickland, the colored preacher accused by Hose of complicity with the Crawford diabolism, was hanged near Palmetto Sunday night. He was first tortured by being struck up three times to force him to confess. He refused. Then his ears and one finger were cut off and then he was hanged. This was done in violation of a promise the mob made to Major Thomas, Strickland's employer, that Strickland would be given up to the authorities. The mob ordered Major Thomas to leave the town, but he defied them and said he had never learned to run. Another mob is hunting a negro named Sewell who had expressed himself too freely regarding the recent lynchings.

Public opinion here is practically a justification of the horror of Sunday. Governor Candler lays it to the fact that the negro has a vote, and nowhere is the lynching denounced. The Methodist minister's met yesterday. A resolution was offered first denouncing Hose's crime vigorously and then mildly deprecating the lynching, but after a long discussion it was laid over for a week. At Savannah the press and people condemn the lynchings in unmeasured terms.

### Innocent Holders of Bogus Stamps.

Washington, April 25.—The internal revenue bureau has in course of preparation a circular letter to collectors in which they are directed to forward to the bureau all applications for relief from innocent holders of cigars stamped with counterfeit stamps and purchased from Jacobs, the Lancaster, Pa., cigar manufacturer lately arrested by secret service officials.

#### LAKE AND MARINE.

Capt. Ralph C. Brittain will command the steamer Frank Woods himself this season on the Sheboygan-Manitowish-Grand Haven run. The veteran captain, ship builder and ship owner has not had active command now of any boat since 1889. He has built some splendid little steamers in Saugatuck and has helped materially in keeping up that burg. Years ago he resided in Ferrysburg and it is too bad that he did not remain here.—G. H. Tribune.

When the navigation season opens Marquette will have the distinction of having the only lighthouse on the lakes lighted by electricity. If the innovation proves successful there, other lighthouses around the lakes will be lighted in the same manner wherever possible.

A new revolving government light has been placed at the lake end of Sturgeon Bay canal. With an unobstructed view it can be seen at a distance of nearly twenty miles.

A dozen vessels laden with grain are waiting at the piers in Chicago harbor for news that the straits are open. They will get away within an hour after news comes that some vessel has succeeded in getting through the ice.

An unusual thing occurred Wednesday. The steamer Nyack was obliged to return across the lake last night with five carloads of flour that she had brought over in the morning. It was found impossible to get enough men to unload the boat.—Tribune.

It is reported that the Crosby employees will receive 20 cents an hour after the first of May.

The steamer Lizzie Walsh is being overhauled from top to bottom before going into service. A new boiler will take the place of the old one and the engine will be thoroughly overhauled. She will be entirely seaworthy when she goes out this summer.

The steamer Soo City will take the Holland-Chicago route either Sunday or Tuesday evening, to relieve the City of Holland, which will be taken to Montague to receive a new engine. Business is very brisk this spring both in freight and passengers.

#### BUYERS WILL TAKE RISKS.

Cincinnati Firms Plans to Sell Editorial Transportation.

The Central Passenger Association has made plans to defeat the efforts of an enterprising firm in Cincinnati to do a big business in railroad transportation issued in payment for newspaper advertising. Such transportation is issued with a stipulation that it shall be used only by the newspaper man to whom it is originally issued, and he makes an agreement with the railroads not to permit anybody else to have the transportation, which is usually in the form of a mileage book.

For the past week the passenger officials of nearly all the roads in Illinois, Indiana, Ohio, and Pennsylvania have been receiving from editors of newspapers in those states letters, of which the following is a sample:

I. KAIN. F. C. KESSINGER. CINCINNATI BUSINESS EXCHANGE. Buy, sell, and exchange stores and business enterprises of all kinds. Business opportunities for sale in all parts of the United States. All communications confidential. Room 400 Johnston Building, southwest corner Fifth and Walnut streets, opposite Fountain Square. Let us know your wants. Correspondence solicited.

CINCINNATI, Ohio, April 8.—Editor Journal, Dayton, Ohio.

Dear Sir:—If you have any railroad transportation (issued in exchange for advertising) which you cannot make use of yourself and wish to dispose of, we will be pleased to quote you top prices for same at any time.

Having a lot of traveling agents continually on "the road" who are perfectly familiar with all the details in using this form of transportation, we have been able to reduce our expense amount and have never experienced any difficulty in handling same. Hoping to hear from you frequently, we beg to remain yours truly,

"CINCINNATI BUSINESS EXCHANGE."

Per K. & K.

Instructions to confiscate all editorial transportation presented by anybody but the person to whom it was originally issued have been given to the conductors of all the Eastern lines which are members of the Central Passenger Association. The detectives of the association will doubtless succeed in securing proof of the fact if any editorial transportation is disposed of to ticket scalpers.

## HOLLAND PEOPLE.

Can't Dispute Evidence of People Right Here at Home.

Doubt has always held a prominent part in Man's belief and it can be held accountable for most of the upheavals or defections from old established creed and more than one difference in existing political opinions, but the greatest follower of the redoubtable Ingersoll in Holland will go back on his champion's teachings if he doubts the evidence of his senses or disbelieves anything he can personally investigate. The reader is asked to investigate the case of Mrs. F. Andree, of 243 West 13th street, who says:

"For a year or more I suffered a great deal with my kidneys a constant, aching pain through my loins, in the side and also a soreness of the stomach. I could hardly stoop over to lift anything without suffering severely. I did not rest comfortably nights and became so lame and sore from lying in one position that in the morning I arose feeling tired and unrefreshed. I was bothered a great deal with headaches, spells of dizziness, and the kidney secretions became affected, were irregular, too frequent and unnatural. I doctored a great deal and took many kinds of medicine but without getting better. I believe I would still be suffering if I had not heard about Doan's Kidney Pills and procured them from J. O. Doesburg's drug store. I felt better after taking the first few doses and I continued their use for a time and have since then enjoyed good health. Doan's Kidney Pills are a thoroughly reliable and honest medicine and I can highly recommend them."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milbourn Co., Buffalo, N. Y. Sole agents for the U. S. Remember the name Doan's and take no substitute. For Sale at J. O. Doesburg's Drug Store.

#### GRAND HAVEN NEWS.

Mayor Baar has made the following appointments: City attorney, Peter J. Danhof; marshal, Isaac H. Sanford; nightwatch, A. M. Barden. The new council, at the suggestion of the mayor will pay last year's arrears in salaries from this year's funds.

Hon. George W. McBride will make the Memorial Day address in Coopersville. The G. A. R. boys of that place spoke for him last fall already so as to be sure to secure him.

The schooner Kate Lyons, in port for ice, used to sail years ago for the Cutler & Savidge Lumber Company and has taken on many a load of lumber here.

Rev. Jonker of Jamestown has declined the call extended him by the First Christian Reformed church. This is his second declination.

An important deal in local real estate was made Saturday. Mr. Derk Baker buying Enos Stone's fine residence property on Clinton street, formerly the Cairns' residence. This is one of the finest residences in the city and is handsomely located. It is understood that Mr. Baker paid \$1800 for the place and also exchanged a Franklin street lot for the same.

General Superintendent Kimball of the life saving service Saturday sent notice to keepers of stations along the great lakes to make every preparation for specially heavy weather next month. Superintendent Kimball was notified by the weather officials that the weather in May, which is usually stormy on the lakes, will be unusually so this year, and every precaution is being taken to prevent loss of life and property by marine disaster.—Tribune.

#### Culture Is Best Acquired at Home.

There is a mistaken idea of culture prevalent. Culture does not mean merely committing to memory a great number of facts out of text-books, but it does mean a careful and thoughtful assimilation of every bit of knowledge that comes our way for the purpose of making ourselves more intelligent, more noble, more helpful human beings, and where can be found a better school for the development of these attributes than in a wisely and properly conducted home?—May "Ladies' Home Journal."

## WHY NOT GET ON THE

## Right Road?

When our two thousand testimonials of the many cures that the **Great French Medicine** is making yearly.

It is no trifle! That common trouble—Acid Dyspepsia, or Sour Stomach—Now recognized as a cause of serious disease.

Acid Dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion, resulting from fermentation of the food, the stomach being too weak to digest it. The food remains until fermentation begins, filling the stomach with gas, and a bitter, sour taste in the mouth is often the result. This condition soon becomes chronic, and being an every day occurrence is given but little attention, because dyspepsia is not immediately fatal. Many people neglect this trouble. Within a recent period a remedy has been discovered prepared solely to cure dyspepsia and stomach troubles, and is known as the **French Remedy**. This medicine is being used extensively and is described as a "Radical" cure for every form of dyspepsia.

L. LaFLEUR'S Wonderful Medical Discovery has been placed before the public, and sold by druggists for 50c and \$1.00 per bottle. It is prepared by the Grand Rapids (Mich.) Medicine Co. and is guaranteed a pure, vegetable compound. Restores the nerves and is perfectly harmless, and will not injure the most delicate stomach, but on the contrary it promotes perfect digestion, strengthens the stomach and improves the appetite, thus making life worth living for.

Send for our pamphlet, treating on all diseases of the stomach, and all nervous diseases. This book also gives many formulas with full directions.

A full line of L. LaFLEUR'S French Medicines are for sale by H. J. Klompars, dealer in staple and fancy groceries at lowest prices. Cor. Central Ave., and Sixteenth Street, Holland 15-18

## ANOTHER VICTORY.

For Drake's Dyspepsia Cure and Nerve Restorer.

"For the sake of any person that may be afflicted with Dyspepsia in any of its many forms, I take great pleasure in stating my past and present condition. And if there is a soul on earth that has suffered as I have, they are certainly deserving of much pity. Nearly two years ago I began to be troubled with indigestion. Soon my bowels began bothering me. Occasionally I would have severe Headache and Dizzy spells. My appetite gradually left me so that nothing seemed to relish. Doctors said I had inflammation of the mucous membrane of the Stomach. My condition was such that it affected my Heart, and frequently I would fall helpless to the ground. About a year ago I was obliged to quit work of any kind and was at times unable to even walk across the street, or stoop over on account of my heart trouble and dizziness. I bought various preparations recommended for my troubles, but continued to grow worse. Four weeks ago I heard what Drake's Dyspepsia Cure and Nerve Restorer was doing for cases similar to my own; I immediately procured a package from John J. Orr of Tecumseh; after using it three weeks I began doing some work, and last week, which was the fourth week I had taken the treatment, I built fence nearly every day. Words cannot express my gratitude for what this treatment has done for me, and I wish every sufferer in the world knew of it's wonderful curative power.

Yours very truly,

#### No Right to Ugliness.

The woman who is lovely in face form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at the drug stores of H. Walsh, Holland, and Van Bree & Son, Zeeland.—2.

#### PORT SHELTON.

If in a close examination of the trunk by sliding a knife in the bark on the S. W. side of the peach tree you find the tree all dead, then every one of Chris. #### FREE OF CHARGE.

Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at the drug store of Heber Walsh, will be presented with a sample bottle of **Boschee's German Syrup** free of charge. Only one bottle given to one person, and none to children without order from parents.

No throat or lung remedy ever had such a sale as Boschee's German Syrup in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only Throat and Lung Remedy generally endorsed by physicians. One 75 cent bottle will cure or prove its value. Sold by all druggists in this city.—2.

## Her Health Restored

THE misery of sleeplessness can only be realized by those who have experienced it. Nervousness, sleeplessness, headaches, neuralgia, and that miserable feeling of unrest, can surely be cured by Dr. Miles' Restorative Nervine. So certain is Dr. Miles of this fact that all druggists are authorized to refund price paid for the first bottle tried, providing it does not benefit.

Mrs. Henry Burns, wife of the well known blacksmith at Grand Junction, Iowa, says: "I was troubled with sleeplessness, nervousness, headache and irregular menstruation; suffering untold misery for years. I used various advertised remedies for female complaints besides being under the care of local physicians, without help. I noticed in Dr. Miles' advertisement the testimonial of a lady cured of ailments similar to mine, and I shall never cease to thank that lady. Her testimonial induced me to use Dr. Miles' Nervine and Nerve and Liver Pills, which restored me to health. I cannot say enough for Dr. Miles' Remedies."

Men Who Travel.  
Hostling and hasty meals often play havoc with the traveling man's digestion. An experienced commercial man, who spends most of his time on the road, states that he never allows himself to be without a bottle of Carter's Cascara Pills. He always takes one pill after a hearty or hurried meal, and finds them a mighty good thing. For all those who come from indigestion, dyspepsia and a torpid liver, there is no remedy so certain as Carter's Cascara Pills. Price 25c. At Heber Walsh's drug store.

J. D. Bridge, editor and proprietor of the Democrat, Lancaster, N. H., says: "I would not be without One Minute Cough Cure for any boy, when troubled with a cough or cold. It is the best remedy for croup I ever used."

## A GREAT MAN'S LIFE.

STEPHEN J. FIELD THE SUBJECT OF DR. TALMAGE'S SERMON.

His Religious Training Laid the Foundation of His Steadfast Character—The Great Divine's Tribute to a Departed Friend.

[Copyright, Louis Klopsch, 1899.]  
WASHINGTON, April 23.—One of the most notable characters of our time is the subject of Dr. Talmage's discourse, and the lessons drawn are inspiring; text, II Samuel III, 38, "Know ye not that there is a prince and a great man fallen this day in Israel?"

Here is a plumed catastrophe, followed by King David and a funeral oration which he delivers at the tomb. Concerning Abner, the great, David weeps out the text. More appropriately than when originally uttered we may now utter this resounding lamentation, "Know ye not that there is a prince and a great man fallen this day in Israel?"

It was 30 minutes after 6, the exact hour of sunset of the Sabbath day, and while the evening lights were being kindled, that the soul of Stephen J. Field, the lawyer, the judge, the patriot, the statesman, the Christian, ascended. It was sundown in the home on yonder Capitol hill, as it was sundown on all the surrounding hills, but in both cases the sun set to be followed by a glorious sunrise. Hear the Easter anthems still lingering in the air, "The trumpet shall sound, and the dead shall rise."

Our departed friend came forth a boy from a minister's home in New England. He knelt with father and mother at morning and evening prayer, learned from maternal lips lessons of piety which lasted him and controlled him amid all the varied and exciting scenes of a lifetime and helped him to die in peace an octogenarian. Blot out from American history the names of those ministers' sons who have done honor to judicial bench and commercial circle and national legislature and presidential chair, and you would obliterate many of the grandest chapters of that history. It is no small advantage to have started from a home where God is honored and the subject of a world's emancipation from sin and sorrow is under constant discussion.

The Ten Commandments, which are the foundation of all good law—Roman law, German law, English law, American law—are the best foundation upon which to build character, and these which the boy, Stephen J. Field, so often heard in the parsonage at Stockbridge were his guidance when, a half century after, as a governed justice of the supreme court of the United States, he unrolled his opinions. Bibles, hymnbooks, catechisms, family prayers, atmosphere sanctified, are good surroundings for boys and girls to start from, and if our laxer ideas of religion and Sabbath days and home training produce as splendid men and women as the much derided Puritanic Sabbath and Puritanic teachings have produced it will be a matter of congratulation and thanksgiving.

A Minister's Son.  
Do not pass by the fact that I have not yet seen emphasized that Stephen J. Field was a minister's son. Notwithstanding that there are conspicuous exceptions to the rule—and the exceptions have built up a stereotyped definition on the subject—statistics plain and undeniable prove that a larger proportion of ministers' sons turn out well than are to be found in any other genealogical table. Let all the parsonages of all denominations of Christians where children are growing up take the consolation. See the star of hope pointing down to that manger!

Notice also that our departed friend was a member of a royal family. There were no crowns or scepters or thrones in that ancestral line, but the family of the Fields, like the family of the New York Princes, like the family of the Princeton Alexanders, like a score of families that I might mention, if it were best to mention them, were "the children of the King," and had put on them honors brighter than crowns and wielded influence longer and wider than scepters. That family of Fields traces an honorable lineage back 800 years to Hubertus de la Feld, coadjutor of William the Conqueror. Let us thank God for such families, generation after generation on the side of that which is right and good. Four sons of that country minister, known the world over for extraordinary usefulness in their spheres, legal, commercial, literary and theological, and a daughter, the mother of one of the associate justices of the supreme court. Such families counterbalance for good those families all wrong from generation to generation—families that stand for wealth, unrighteously got and stingily kept or wickedly squandered; families that stand for fraud or impurity or malevolence; family names that immediately come to every mind, though through sense of propriety they do not come to the lip. The name of Field will survive centuries and be a synonym for religion, for great jurisprudence, for able Christian journalism, as the names of the Pharisees and the Caesars stand for cruelty and oppression and vice.

While parents cannot aspire to have such conspicuous households as the one the name of whose son we now celebrate, all parents may by fidelity in prayer and holy example have their sons and daughters become kings and queens unto God, to reign forever and ever. But the work has already been done, and I could go through this country and find a thousand households which have by the grace of God and blessing upon paternal and maternal excellence become the royal families of America.

Honor the Home.  
Let young men beware lest they by their behavior blot such family records with some misdeed. We can all think of households the names of which meant everything honorable and consecrated for a long while, but by the deed of one son sacrificed, disgraced and blasted. Look out how you rob your consecrated ancestry of the name they handed to you unsullied! Better as trustee to that name add something worthy. Do something to honor the old homestead, whether a mountain cabin or a city mansion or a country parsonage. Rev. David Dudley Field, though 32 years passed away, is honored today by the Christian life, the service, the death of his son Stephen.

Among the most absorbing books of the Bible is the book of Kings, which again and again illustrates that though piety is not hereditary the style of parentage has much to do with the style of descendant. It declares of King Abijah, "He walked in all the sins of his father which he had done before him," and of King Ahab, "He did that which was right in the sight of the Lord, according to all that his father Ahab had done." We owe a debt to those who have gone before in our line as certainly as we have obligations to those who subsequently appear in the

household. No so sacred is your old father's walking staff, which you keep in his memory, or the eyeglasses through which your mother studied the Bible in her old age as the name they bore, the name which you inherited. Keep it bright, I charge you. Keep it suggestive of something elevated in character. Trample not underfoot that which to your father and mother was dearer than life itself. Defend their graves as they defended your cradle. Family coat of arms, escutcheons, ensigns armorial, lion couchant, or lion rampant, or lion rampant, or lion combatant, may attract attention, but better than all heraldic inscription is a family name which means from generation to generation, faith in God, self sacrifice, duty performed, a life well lived and a death happily died, and a heaven gloriously won. That was the kind of name that Justice Field augmented and adorned and perpetuated—a name honorable at the close of the eighteenth century, more honored now at the close of the nineteenth.

A Great Dissector.  
Notice also that our illustrious friend was great in reasonable and genial dissent. Of the 1,043 opinions he rendered none was more potent or memorable than those rendered while he was in small minority and sometimes in a minority of one. A learned and distinguished lawyer of this country said he would rather be the author of Judge Field's dissenting opinions than to be the author of the constitution of the United States. The tendency is to go with the multitude, to think what others think, to say and do what others do. Sometimes the majority are wrong, and it requires heroics to take the negative, but to do that logically and in good humor requires some elements of make up not often found in judicial dissenters or, indeed, in any class of men. There are so many people in the world opposed to everything and who display their opposition in numerous and obnoxious ways that a Judge Field was needed to make the negative respected and genial and right. Minorities under God save the world and save the church. An unthinking and precipitate "yes" may be stopped by a righteous and heroic "no." The majorities are not always right. The old gospel hymn declares it: Numbers are no mark that men will right be found.

A few were saved in Noah's ark to many millions drowned.

The Declaration of American Independence was a dissenting opinion. The Free Church of Scotland, under Chalmers and his co-workers was a dissenting movement. The Bible itself, Old Testament and New Testament, is a protest against the theories that would have destroyed the world and is a dissenting as well as a divinely inspired book. The Decalogue on Sinai repeated ten times "Thou shalt not." For ages to come will be quoted from lawbooks in courtrooms Justice Field's magnificent dissenting opinions.

Tempered by Hardships.  
Notice that our ascended friend had such a character as assault and peril alone can develop. He had not come to the soft cushions of the supreme court bench stepping on cloth of gold and saluted all along the line by handclapping of applause. Country parsonages do not rock their babies in satin lined cradle or afterward send them out into the world with enough in their hand to purchase place and power. Pastors' salaries in the early part of this century hardly ever reached \$700 a year. Economies that sometimes cut into the bone characterized many of the homes of the New England clergymen. The young lawyer of whom we speak today arrived in San Francisco in 1849 with only \$10 in his pocket. Williamstown college was only introductory to a postgraduate course which our illustrious friend took while administering justice and halting ruffianism amid the mining camps of California. Oh, those "forty timers," as they were called, through what privations, through what narrow escapes, and what exposures they moved! Administering and executing law among outlaws never has been an easy undertaking. Among mountaineers, many of whom had no regard for human life, and where the snap of pistol and bang of gun were not unusual responses, required courage of the highest metal.

Behind a dry goods box, surrounded by tallow candles, Judge Field began his judicial career. What exciting scenes he passed through! An infernal machine was handed to him, and inside the lid of the box was pasted his decision in the Pueblo case, the decision that had balked unprincipled speculators. Ten years ago his life would have passed out had not an officer of the law shot down his assailant. It took a long training of hardship and abuse and misinterpretation and threat of violence and flash of assassin's knife to fit him for the high place where he could defy legislatures and congresses and presidents and the world when he knew he was right. Hardship is the grindstone that sharpens intellectual faculties and the swords with which to strike effectively for God and one's country.

Why Many Fail.  
The reason that life to so many is a failure is because they do not have opposition enough and trials enough or because they ignominiously lie down to be run over by them instead of using them for stairs on which to put their feet and mount. Those "born with a gold spoon in their mouths" are apt to take their last medicine out of a pewter mug. Have brave heart in all departments, ye men of many obstacles! There is no brawn or character without them. The roughs glaring and growling around about the shed of a courtroom in Marysville, Cal., had as much to do with Judge Field's development as Mark Hopkins, the great Williamstown college president. Opposition develops courage. I like the ring of Martin Luther's defiance when he said to the Duke of Saxony, "Things are otherwise ordered in heaven than they are at Augsburg."

Notice also how much our friend did for the honor of the judiciary. What momentous scenes have been witnessed in our United States supreme court, on the bench and before the bench, whether far back it held its sessions in the upper room of the exchange at New York or afterward for ten years in the city hall at Philadelphia or later in the cellar of yonder capitol, the place where for many years the Congressional library was kept, a repulsive where books were buried alive, the hole called by John Randolph "the Cave of Trophimus!" What mighty men stood before that pleading in humorous eloquence on questions of national import! Edmund Randolph and Alexander Hamilton and Pinkney and Jeremiah Mason and Caleb Cushing and the weird and irresistible Rufus Choate and George Wood and Charles O'Connor and James T. Brady and Francis B. Cutting and men now living just as powerful.

How suggestive the invitation which William Wirt, the great Virginian, wrote his friend inviting him to yonder supreme court room: "Tomorrow a week will come on the great steamboat question from New York—Emmett and Oakley on one

side, Webster and myself on the other. Come down and hear it. Emmett's whole soul is in the case, and he will stretch all his powers. Oakley is said to be one of the finest logicians of the age, as much a Phœnix as Emmett is a Themistocles, and Webster is as ambitious as Caesar. He will not be outdone by any man if it is within the compass of his power to avoid it. Come to Washington. It will be a combat worth witnessing." The supreme court has stood so high in England and the United States that the views of a few who have occupied that important place have not been able to disgrace it, neither the corruption of Francis Bacon, nor the cruelty of Sir George Mackenzie, nor the Sabbath desecration of Lord Castlereagh.

Field Was Never Profane.  
To that highest of all tribunals Abraham Lincoln called our friend, but he lived long enough to honor the supreme court more than it had ever honored him. For more than 34 years he sat in the presence of this nation and of all nations a model judge. Fearlessness, integrity, devotion to principle, characterized him. No bribe ever touched his hand. No profane word ever scalded his tongue. No blemish of wrong ever marred his character. Fully qualified was he to have his name associated in the history of this country with the greatest of the judiciary.

As at 12 o'clock day by day on yonder hill the gavel falls in the supreme courtroom, and it is announced that the chief justice of the United States and the associate justices are about to enter, and all counselors at the bar and all spectators rise to greet them, and the officer with the words, "Oyez, oyez, oyez!" announces that all is now ready for a hearing and exclaims, "God save the United States of America," so I wish we could in imagination gather together those who have occupied that high judicial place in this and other lands, and they might enter, and after the falling of some mighty gavel had demanded attention we could look upon them—Marshall, the giant of American jurisprudence, and John Jay, of whom Daniel Webster said in commemoration, "When the spotless ermine of the judicial robe fell on John Jay, it touched nothing less spotless than itself," and Rutledge and Cushing and Ellsworth and Joseph Story, called the Walter Scott of common law, and Sir Matthew Hale and Lord Eldon and Lord Mansfield and the long line of lord chancellors and the great judges from both sides the sea, and after they had taken their places in our quickened imagination the distinguished cases of centuries which they decided might again be called on, after the assembled nations had ejaculated, "God save the United States of America," "God save Great Britain," "God save the nations."

A Tribute to Law.  
Ah, how the law honors and sanctifies everything it touches! Natural law. Civil law. Social law. Commercial law. Common law. Moral law. Ecclesiastical law. International law. Oh, the dignity, the impressiveness, the power of law! It is the only thing before which Jehovah bows, and he bows before that, although the law is of his own making. The law! By it worlds swing. By it the fate of centuries is decided. By it all the affairs of time and all the cycles of eternity will be governed. We cannot soar so high, or sink so deep, or reach out so far, or live so long as to escape it. It is the throne on which the Almighty sits. To interpret law, what a profession! What a responsibility! What an exaltation when the judge be a Lord Jeffries! What a benediction if he be a Chancellor Kent!

In passing let me say that for this chief tribunal of our country congress should soon provide a better place. Let some of the moneys voted for the improvement of rivers which are nothing but dry creeks and for harbors which will never have any shipping and for monuments to some people whom it is not at all important for us to remember be voted for the erection of a building worthy of our United States supreme court. John Ruskin, in "Stones of Venice," calls attention to the pleasing fact that in the year 813 the doge of Venice devoted himself to putting up two great buildings—St. Mark's, for the worship of God, and a palace for the administration of justice to man. In its appreciation of what is best let not 1899 be behind 813. With such granite in our quarries and such architects capable of drafting sublime structure and such magnificent sites on which to build let not another year pass before we hear the trowel ring on the cornerstone of a temple to be occupied by the highest court of the land.

Justice Will Plead.

Have you ever realized how much God has honored law in the fact that all up and down the Bible he makes the judge a type of himself and employs the scene of a courtroom to set forth the grandeur of the great judgment day? Book of Genesis, "Shall not the judge of all the earth do right?" Book of Deuteronomy, "The Lord shall judge his people." Book of Psalms, "God is Judge himself." Book of the Acts, "Judge of quick and dead." Book of Timothy, "The Lord the righteous Judge." Never will it be understood how God honors judges and courtrooms until the thunderbolt of the last day shall pound the opening of the great assize—the day of trial, the day of clearance, the day of doom, the day of judgment. The law of the case on that occasion will be read, and the indictment of ten counts, which are the Ten Commandments. Justice will plead the case against us, but our glorious advocate will plead in our behalf, for "we have an advocate with the Father—Jesus Christ, the righteous." Then the case will be decided in our clearance, as the Judge announces, "There is now, therefore, no condemnation to them who are in Christ Jesus." Under the crowded galleries of cloud on that last day and under the swaying upholstery of a burning heavens and while the Alps and Himalayas and Mount Washington are falling flat on their faces we will be able to understand the significance of those Scripture passages which speak of God as Judge and employ the courtroom of earth as typical of the scene when all nations shall be brought into tribunal.

To have done well, all that such a profession could ask of him, and to have made that profession still more honorable by his brilliant and sublime life, is enough for national and international, terrestrial and celestial congratulation. And then to expire beautifully while the prayers of his church were being offered at his bedside, the door of heaven opening for his entrance as the door of earth opened for his departure, the sob of the earthly farewell caught up into raptures that never die. Yes, he lived and died in the faith of the old fashioned Christian religion.

Believed in the Bible.

Young man, I want to tell you that Justice Field believed in the Bible from lid to lid, a book all true either as doctrine or history, much of it the history of events that neither God nor man approves. Our friend drank the wine of the body sacrament and ate the bread of which "if a

man eat he shall never hunger." He was the up and down, out and out friend of the church of Christ. If there had been anything illogical in our religion, he would have scouted it, for he was a logician. If there had been in it anything unreasonable, he would have rejected it, because he was a great reasoner. If there had been in it anything that would not stand research, he would have exploded the fallacy, for his life was a life of research. Young men of Washington, young men of America, young men of the round world, a religion that would stand the test of Justice Field's penetrating and all ransacking intellect must have in it something worthy of your confidence. I tell you now that Christianity has not only the heart of the world on its side, but the brain of the world also. Ye who have tried to represent the religion of the Bible as something pusillanimous, how do you account for the Christian faith of Stephen J. Field, whose shelves of the law library occupied with his magnificent decisions?

And now may the God of all comfort speak to the bereft, especially to her who was the queen of his life, from the day when as a stranger he was shown to her pew in the Episcopal church, to this time of the broken heart. He changed churches, but did not change religions, for the church in which he was born and the church in which he died alike believe in God the Father Almighty, Maker of heaven and earth, and in Jesus Christ, his only begotten Son, and in the communion of saints, and in the life everlasting. Amen.

Where He Should Sleep.

The body of our friend sleeps in temporary resting place. Hearts overwhelmed with grief cannot just now decide where that sacred and silent form shall bear the trumpet that wakes the dead. Three places are proposed, and all appropriate. Some say let it be in some God's acre near this capital, where the pillows of dust are already embowered with spring flowers. How appropriate some cemetery near this city, which was so long his residence, and so near the place where he sat in judgment, holding evenly the balances that God put in his hand! It would be well for us sometimes to go out and read his epitaph and recall his virtues. Some say let him rest on the Pacific slope, where he achieved so much for the new state and lifted himself for so great eminence, and it would be beautiful to let the whole nation bow at his passing catalogue, a funeral reaching from ocean to ocean and 8,000 miles long, the Alleghenies and the Rockies and the Sierra Nevadas echoing the thunders of the rail train taking him to his last earthly home.

But equally appropriate is another proposal that he be put to rest amid the graves of father and mother and renowned brothers and the New England friends of the family in the cemetery at Stockbridge, Mass. After a life of toil and struggle he needs some quiet place. Old men who were his schoolfellows would lean heavily upon the staff and watch as he was brought through the gates of the place in which they also will soon lie down to rest. Far away from the jostle and contention and rush and activities of the great cities he would sleep the calm sleep of the just. The hyacinths and calla lilies of the spring planted there would typify the resurrection, and the snows of winter banked there would suggest the robes made white in the blood of the Lamb.

Farewell!

Goodby, my dear old friend of more than 30 years. Your words of personal encouragement and good cheer give me the right to offer words of commemoration. But I must leave to others his place of burial. This city might choose Rock Creek and Oak Hill, and San Francisco might choose Lone Mountain, yet if I had my choice I would say let it be the cemetery at Stockbridge. He would be at home there, and it would be a family reunion. But, whatever be the place, let me sprinkle over the newly made grave this handful of heather from the Scotch highlands, in the hymn which the people of that land of Andrew Melville and John Knox are apt to sing on their way to the grave of some one greatly beloved:

Neighbor, accept our parting song.  
The road is short, the rest is long.  
The Lord brought here, the Lord takes hence;  
This is no house of permanence.

On bread of mirth and bread of tears  
The pilgrim fed these checkered years;  
Now, landlord world, shut to the door;  
Thy guest is gone forever more.

Gone to the land of sweet repose,  
His comrades bless him as he goes.  
Of toil and morn the day was full.  
A good sleep now—the night is cool.

Yes, village bells, ring softly, ring,  
And in the blessed Sabbath bring  
Which from this weary world you try  
Await God's folk through Jesus Christ.

Lansing, Mich., April 26.—The su-  
preme court assigned May 5 as the date for  
arguments in the case brought to  
test the act authorizing municipal own-  
ership and operation of street railways  
in Detroit. The attorney general ap-  
pears as relator in a quo warranto pro-  
ceeding brought to test the authority of  
the Detroit street railway commission.

Detroit, April 26.—The street railway  
commission and appraisers of the street  
railway properties held an executive  
meeting last night, figuring the values  
of the street railway properties and  
franchises and discussing the differences  
in values with representatives of the  
companies. Professor Edward W. Ben-  
niss, who has been figuring upon the  
values of the franchises, states that  
there is now only about 4 per cent. dif-  
ference in the appraisals made by the  
street railway people and by the agents  
of the commission.

#### GIFT TO UNIVERSITY.

Liquid Air Machine Presented by Its  
Inventor.

Ann Arbor, Mich., April 25.—Professor  
C. F. Brush, the electrician, has pre-  
sented the University of Michigan with  
a complete liquid air machine. The  
machine is being built by Linde of Ber-  
lin at a cost of about \$1,200. It will  
weigh only about 200 pounds and is  
said to be a very simple piece of ma-  
chinery. It is expected that by the  
time the university opens next fall the  
machine will be in place in the chemi-  
cal laboratory and will be manufac-  
turing liquid air in abundance. Liquid  
air is ordinary air reduced to the con-  
sistency of a liquid by the extraction of  
its heat. Its temperature is 312 degrees  
below zero. It looks very much like  
water. In color it is slightly bluish, al-  
though generally speaking it is said to  
be colorless like pure water. Professor  
Brush, who makes the gift to the uni-  
versity, is a graduate of the University  
of Michigan, he being a member of the  
class of '69 of the library department.

#### TROUBLE FOR MICHIGANERS.

Many of Them Liable to Heavy Fines by  
Ignoring a Statute.

Lansing, Mich., April 25.—A large  
number of citizens of Michigan have  
made themselves liable to heavy fines  
and penalties which the attorney gen-  
eral will shortly proceed to collect un-  
less the long-ignored provisions of the  
statutes are complied with during the  
next sixty days. Such enforcement will  
bring into the state treasury not less  
than \$500,000. The situation is of in-  
terest to officers and directors of all  
the mercantile and manufacturing cor-  
porations of the state, many of whom re-  
side in Chicago and other places out-  
side of the state.

The statute in question requires all  
manufacturing and mercantile corpora-  
tions to file with the secretary of state  
annually, in the months of February  
and March, a report for the fiscal year  
of such corporation, showing the  
amount of its capital stock, the amount  
invested in real estate, personal prop-  
erty, debts, credits, etc.

#### MIGHTY FREE WITH CHECKS.

But Up to Date He Only Owes His Land-  
lord So Far as Known.

Potoskey, Mich., April 25.—Charles Sin-  
clair registered at the Park House, ex-  
plaining that he was a fortunate Idaho  
miner seeking investment in Potoskey.  
He deposited with the City Bank a \$45-  
000 check on the National bank of Boise  
City, Ida., and obtained a check book.  
He then went out to buy the town. Sev-  
eral pieces of property aggregating \$23-  
000 were accepted and checks offered in  
payment.

Meanwhile he gave J. H. Miller & Co.  
a \$3,000 check to apply on furnishings  
for one of his houses, and M. B. Harner  
a \$1,000 check for a harp. No goods,  
however, were delivered so far as  
known, and in only two cases was cash  
obtained in change. He owed Landlord  
Perry \$20 and a message from Grand  
Rapids states that he was offering  
checks on the Potoskey bank for goods  
bought in Grand Rapids.

#### TAMPER WITH NEW LAW.

Michigan Municipal Ownership Bill Is  
Changed After Passage.

Lansing, Mich., April 24.—A sensation  
was created in legislative circles by the  
discovery that the McLeod law provid-  
ing for the municipal ownership of  
street railways in Detroit was tampered  
with after it passed both houses and  
before it was signed by the governor.  
The changes consist of the elimination  
of the provision that the act shall not  
in any manner affect the power of the  
common council under other laws to  
grant or extend franchises. Neither the  
committee in charge of the bill nor  
either house made the amendment, and  
officials are endeavoring to find out  
who made the erasure.

Governor Pingree says the omission  
of the clause is of no consequence. The  
attorneys of the Citizens' company as-  
sert that the alleged discrepancy is a  
strong point in the proceedings they are  
about to bring to test the act.

#### "FAKE" MEDIUM FOUND GUILTY.

Jury Says He Murdered and Robbed V. C.  
Nichols at Detroit.

Detroit, April 24.—Edward Ascher,  
alias Robert Lang, was late Saturday  
night found guilty of murdering Val-  
more C. Nichols on Aug. 10 last. It was  
Ascher's second trial. On the first the  
jury disagreed. Ascher was a spiri-  
tualist, and had been giving Nichols,  
who lived in Ypsilanti, sittings. On  
Aug. 10 Nichols disappeared, and eight  
days later his body was found in the  
river.

Ascher had on different occasions ad-  
vised Nichols to wear a belt containing  
a sum of gold. When Nichols' body  
was found the belt was on it, but there  
was no money in it. Ascher had worked  
his "fake" medium business in Cincin-  
nati, Louisville and other cities, and in  
Louisville was arrested charged with  
murder—which, however, was not  
proven.

#### Flaw in the McLeod Act.

Detroit, April 23.—The discovery of an

alleged flaw in the McLeod act authoriz-  
ing acquisition by the city of Detroit  
of the street railways has raised an-  
other joint against municipal own-  
ership. The engrossed bill does not con-  
tain a clause which was in the original  
providing that nothing in the act shall  
affect the granting of franchises by the  
city council. Governor Pingree says  
the omission of the clause is of no con-  
sequence. The attorneys of the Citiz-  
ens' company assert that the alleged  
discrepancy is a strong point in the  
proceedings they are about to bring to  
test the act.

#### Michigan Tars in the Navy.

Benton Harbor, Mich., April 24.—Pay-  
master F. T. Sibley of the Michigan  
state naval brigade, assisted by Dr.  
Dilas Parker, surgeon; Dr. E. R. Shir-  
ley, assistant surgeon, and P. L. Will-  
iams, seaman, all of Detroit, examined  
the members of the Alger guards of  
this city, and the boys were mustered  
into the service under three years' en-  
listment. The company will number  
over fifty men, and the officers are:  
Captain, Chester C. Sweet; first lieut-  
enant, Louis Foeltzer; second lieuten-  
ant, George Schaller.

#### Would Enjoin Pingree.

Detroit, April 25.—A committee of  
sixty-two citizens by their attorneys  
filed a bill of complaint in the circuit  
court, asking that Governor Pingree  
and the other members of the Detroit  
street railway commission and the city  
of Detroit be temporarily and perpet-  
ually enjoined from taking any further  
steps toward purchase and operation of  
Detroit's street railways under the Mc-  
Leod act, authorizing the same, and  
asking that the McLeod act and all  
proceedings thereunder be decreed to  
be void.

#### Ice in Straits Breaking Up.

Mackinaw City, Mich., April 24.—The  
ice between this place and Cheboygan  
is breaking up. Strong westerly winds  
will drive it into Lake Huron. The ice  
field, extending from McGulpin's point  
to Waugoshance, is unbroken, but the  
ice is soft and a few warm days or  
strong winds will break it up.

#### Pleased with Municipal Ownership.

Holland, Mich., April 22.—This city is  
highly pleased at the result of its first  
experiment in municipal ownership. In  
1898 it cleared from its own waterworks  
and electric light plant \$3,000 over all  
expenses, including interest on its bonds.

#### Mine Strikers Win Their Point.

Calumet, Mich., April 25.—The men re-  
sumed work at the Tamarack and Os-  
ceola stamp mills last night, the mine  
management having agreed to their de-  
mands for a straight 10 per cent. raise  
at a conference yesterday.

#### State Notes.

The men resumed work at the Tam-  
arack and Osceola stamp mills, Calu-  
met, Mich., the mine management hav-  
ing agreed to their demands for a  
straight 10 per cent. raise at the con-  
ference in the afternoon.

#### SENTENCE COMMUTED.

President Saves the Life of a Porto Rican  
Who Killed a Soldier.

Washington, April 25.—President Mc-  
Kinley has commuted the death sen-  
tence of Rafael Ortiz of Caguas, Porto  
Rico, who murdered Private Burke of  
the Forty-seventh New York infantry,  
to life imprisonment. Secretary Alger  
was instrumental in securing this act of  
clemency, as the case was brought to  
his attention when he was in Porto  
Rico. Ortiz was in love with a Porto  
Rican girl before the arrival of the  
American soldiers in that island, and  
was loved in return. Burke won the  
heart of the dusky maiden, and when he  
protested the American slapped Ortiz's  
face in the presence of his former  
sweetheart.

The Porto Rican swore vengeance, and  
one night, finding Burke drinking with  
several companions, rushed up behind  
him and cut his throat. Ortiz was tried,  
convicted, and sentenced to be shot. He  
was to have been executed at San Juan  
the day Secretary Alger reached Caguas  
on his tour of inspection. The mother  
and sister of the condemned man and  
several other natives lined up on each  
side of the road and stopped the pro-  
gress of the secretary. The mother and  
daughter knelt and pleaded for his life.  
Secretary Alger suspended execution  
until the case could be looked into by  
the president, who has commuted the  
sentence to life imprisonment.

#### Beloit Wins a Land Case.

Beloit, Wis., April 26.—A message re-  
ceived from Madison states that the su-  
preme court has decided the Mechanics  
Green case in favor of the city. The  
case has long been in the courts and in-  
volves the ownership of a small public  
park known as "Mechanics Green,"  
worth as residence property between  
\$15,000 or \$20,000. J. W. Bates, of this  
city, and E. M. Varpenter, of Janesville,  
lawyers, have been suing for possession  
of the land on the ground that it was  
never property given to the city of Be-  
loft and is really the property of the  
heirs of Horace White, the original pio-  
neer owner, whose claim they have se-  
cured. Judge Bennett, of the circuit  
court, recently decided the case in favor  
of the city and the plaintiff carried it  
to the supreme court.

#### Homeseekers After Land.

Durango, Colo., April 26.—Many home-  
seekers have already landed in Du-  
rango en route for the Ute reservation,  
which is to be thrown open for settle-  
ment on May 4. The reservation pre-  
sents such excellent opportunities for  
securing water that many are at a loss  
to know just where to cast their lot.  
Already parties have had surveys for  
irrigation enterprises and it is claimed  
that plenty of water will be furnished  
those who take up lands.

#### Death of Pugilist Lavelle.

Pittsburg, April 26.—"Kid" Lavelle,  
the Chester, Pa., pugilist who was in-  
jured in his fight with John Cavanaugh  
at Homestead last Friday night, is dead  
at the Mercy hospital. During the day  
he was partly conscious and took some  
nourishment. He wanted to talk with  
his nurse and said the nourishment was  
very good. Late in the afternoon he be-  
gan to sink rapidly and at 8:15 o'clock  
he expired.

#### The Buffalo at Gibraltar.

States armed transport Buffalo, having  
on board returning forces from the Phil-  
ippines, has arrived. The Buffalo left  
Manila March 23, and is expected to

New York and Manila, carrying in-  
valids home and taking supplies to the  
fleet in the Philippines.

Kremers, G. J. Van Duren and Henry Geerlings, Jr., each voter placing three names on his ballot and the six names receiving the highest vote to be the nominees. The result was that Dr. H. Kremers received 26 votes, G. J. Van Duren 25, H. Geerlings, Jr. 25, J. Nies, Sr. 4, A. C. Rinck 4, and Dr. J. A. Mabbs 4, and they were declared nominated. Twenty other persons received from one to three votes each. It is surprising that such an important matter as our educational system should not cause more interest being taken by our citizens. Our school caucuses should be better attended.

Our "Underwear Sales" of the past year were a great success and have been greatly appreciated by the ladies of this city and vicinity. It has encouraged us to still greater efforts to make this Sale the "selling event" of the season.
